European Union – Economic Development, Young Europeans and Innovations in Crisis overcoming and Union’s Sustainability

What we do

The key points of the EU DYNAMICUS JM Chair project European Union – Economic Development, Young Europeans and Innovations in Crisis Overcoming and Union’s Sustainability are:

- to enhance sustainable and socially oriented economic growth of the European Union at the regional level
- to equip young generation of Europeans with knowledge, skills and competences related to the economic as social aspects of the integration process
- to socialize them in European spirit of mutual social understanding, economic solidarity and European responsibility.
