## JMCOE EU EX/ACT LEAFLET

### **JEAN MONNET CENTRE OF EXCELLENCE: EU External Actions in the contested global order**

*The European Union is in the process of constant change, challenged not only by domestic processes in Europe, but also facing – more and more intensively – dynamic developments in its neighborhood as well as the new global order that is emerging nowadays.*

*Strengthening position of China, Russia reconstructing its geopolitical position, and weakening Euro-Atlantic ties go alongside instability in Ukraine, Middle East and North Africa. To understand these processes both in academia as well as among European citizens, the Adam Mickiewicz University, Poznan has designed a new step in a long way of its activities promoting the European integration and teaching about the European Union. Together with being granted by the European Commission Erasmus+ Program the status of Jean Monnet Center of Excellence, our team is starting a new set of actions named as “EU EX/ACT” project - “EU External Actions in the contested global order – (in)coherence, (dis)continuity, resilience”.*

## **KEY OBJECTIVES OF EU EX/ACT**

The key objective of the EU EX/ACT project is to enhance understanding of the European Union's role in international politics by equipping a wide range of students of various disciplines, scholars representing numerous domestic and foreign academic centres and practitioners with the knowledge, skills and competences related to external actions and external involvement of the European Union. They will be instructed and socialised in the European spirit of mutual understanding, political and economic solidarity and European responsibility, which are all rooted in the current and changing nature of the international environment as well as deeply settled in the various levels of development strategies, from communitarian to national ones.

Faculty of Political Science  
and Journalism

Co-funded by the  
Erasmus+ Programme  
of the European Union
